

B-TRAIN SIDE DUMP

MODEL: SD3600L & SD2600P

TRAILER FEATURES

FRAME

We use a 110,000 PSI tensile frame flange AND webb, while the majority of other trailers only use high tensile flanges.

CROSSMEMBERS

Engineered laser cut flared end crossmembers increase torsional twist strength making the trailer much more stable.

BOX STRENGTH

The Centerline box is constructed from 400 - 500 brinell strength steel which is extremely wear & crack resistant, giving you a long life cycle.

DUMP ANGLE

The rolled box combined with a steep side dump angle ensures optimum clean out.

LATCH

Comes equipped with a quick change manual latch system for dumping curb or street side.

SIDE CONTROLS

Allows ground crew to manually dump the box when needed.
