

Canuck Trailers TRIDEM END DUMP

Model: R12-3500

TARP

Standard equipped with a Michels Gravel Guard electric drive retractable PVC load cover.

PAINT

Endura Polyurethane paint for superior durability and long life finish.

BOX STRENGTH

The box is constructed from Quard 450 3/16" steel, which is extremely resistant to cracking, giving you a long life cycle.

TAILGATE

Self adjusting latches keeps the tailgate tight and lowers maintenance.

HOIST

The Canuck end dump trailer utilizes an outside hoist mount design to allow for better material clean out.

SUSPENSION

Hendrickson Intraax for maximum performance and proven reliability.

BOX DESIGN

The tapered radius 12 box design of the Canuck end dump trailer decreases material build up and saves time by not having to clean out the box after every load.

FRAME

The Canuck end dump trailer uses 110,000 psi hi-tensile frame flanges and webb, making a strong trailer with a long service life.
